Hi Gina – Based on our conversation this morning, I have revised the FY16 HHRA spreadsheet. I've also attached the proposed FY17 RMS measures to this email. In the comments section for project 2, I've added comments on how I anticipate we will respond when we have to report out at the end of the next FY. This text relates back to what is included in the HHRA Project 2 Plan.

I've also attached to this email the updated HHRA Project 2 Plan for your review. Vicki read through it as well and I think it is in a better and more concise place. I tried to pull the language Vince has used in his one-pager to inform the revisions. There are some resource sections (financial) of the plan that need your attention. I've added comments to call your attention to specific areas.

Let me know if you have any questions or comments.

Thanks!

Dahnish
